SUMMARY

MCA student with a strong foundation in computer applications and programming. Interested in software development and building practical applications. Have experience working with Java, C, C++, HTML, CSS, JavaScript and MySQL, along with experience in team leadership and operations. Currently working on projects including ResearchMind AI and Secure Sakhi.

EDUCATION

Master of Computer Applications (MCA) G.L. Bajaj Institute of Management, Greater Noida	2025–2027
Bachelor of Computer Applications (BCA) Langat Singh College, Muzaffarpur	2022–2025

PROFESSIONAL EXPERIENCE

InfoTECH Club — Core Team Lead • Organized and led technical events, workshops, and hackathons with 500+ participants. • Mentored junior members in programming and project management. • Collaborated with team members to promote technical learning and coordinated with industry professionals for technical sessions.	August 2024 – Present
Ratial — Operational Intern • Worked on operational workflows and service delivery in a fast-paced environment. • Coordinated with cross-functional teams and handled customer issues efficiently. • Prepared standard operating procedures (SOPs) for onboarding clients and service providers.	August 2022 – May 2025

PROJECT

ResearchMind AI — Intelligent Research Assistant • Developed and deployed an AI-powered research assistant using Python, Flask, IBM watsonx.ai, and IBM Granite. • Supports research-paper analysis, literature review generation, research-gap identification, and PDF document summarization. • Implemented Retrieval-Augmented Generation (RAG) for AI-assisted research support from document content. • GitHub: github.com/Ksingh1811/ResearchMind-AI Live: research-mind-ai-silk.vercel.app	Live Deployment
Secure Sakhi — Women Safety Application • Designing an Android mobile application for quick emergency assistance and women's safety. • Planned features include one-tap SOS alerts, GPS tracking, emergency contact notification, safe-route guidance, and Google Maps integration. • Using Flutter and Dart for the frontend with Firebase Authentication, Cloud Firestore, and Firebase Storage for backend services.	Currently Under Development

TECHNICAL SKILLS

Programming Languages: Java, C, C++
Web Technologies: HTML, CSS, JavaScript
Database: MySQL, DBMS
Soft Skills: Leadership, Communication, Problem Solving

CERTIFICATIONS & ACHIEVEMENTS

- Microsoft Azure — 25-hour course completed under Microsoft Elevate in collaboration with Microsoft Learn and FICE.
- IBM SkillsBuild — Professional development and emerging-technology coursework.
- Edunet Foundation — Internship and industry-oriented Artificial Intelligence / Industry 4.0 learning program.
