Professional Overview

MCA student with a good foundation in programming and databases. Worked on an AI-powered research assistant (ResearchMind AI) and currently developing Secure Sakhi, a women-safety mobile app. Comfortable with Java, C, C++, HTML, CSS, JavaScript and SQL, with experience leading technical events. Looking for a software engineering role to learn and contribute.

Experience

Operational Intern | Ratial

May 2024 - Oct 2024

- Worked on operational workflows and service delivery in a fast-paced environment.
- Coordinated with cross-functional teams and handled customer issues efficiently.
- Prepared standard operating procedures (SOPs) for onboarding clients and service providers.

Projects

ResearchMind AI - Intelligent Research Assistant: research-mind-ai-silk.vercel.app

Live Deployment

- Built and deployed an AI research assistant in a 5-day guided **IBM watsonx.ai** training using prompt engineering.
- Supports research-paper analysis, literature review generation, research-gap identification, and PDF document summarization.
- Gained exposure to **Retrieval-Augmented Generation (RAG)** concepts for AI-assisted research support from documents.
- **GitHub:** github.com/Ksingh1811/ResearchMind-AI

Secure Sakhi - Women Safety Application

Currently Under Development

- Designing an Android mobile application for quick emergency assistance and women's safety.
- Planned features include one-tap SOS alerts, GPS tracking, emergency contact notification, safe-route guidance, and Google Maps integration.
- Using **Flutter** and **Dart** for the frontend with **Firebase Authentication**, **Cloud Firestore**, and **Firebase Storage** for backend services.

Skills

Programming Languages: Java, C, C++, Dart

Database: SQL, MySQL, DBMS

Mobile Development: Flutter

- **Web Technologies:** HTML, CSS, JavaScript
- **Soft Skills:** Leadership, Communication, Problem Solving
- **Backend:** Firebase (Authentication, Firestore, Storage)

Education

Master of Computer Applications - G.L. Bajaj Institute of Technology and Management, Greater Noida – 75% (till 3rd Sem) **2025-27**

Bachelor of Computer Applications - Langat Singh College, Muzaffarpur – 80% **2022-25**

Achievements & Certifications

- **InfoTECH Club - Core Team Lead (Aug 2024 - Aug 2025):** Organized and led technical events, workshops, and hackathons with 500+ participants.
- **Microsoft Azure:** 25-hour course completed under Microsoft Elevate in collaboration with Microsoft Learn and FICE.
- **IBM SkillsBuild:** Professional development and emerging-technology coursework.
- **Edunet Foundation:** Internship and industry-oriented Artificial Intelligence / Industry 4.0 learning program.
